

Spicepro International CO., Ltd.		Doc No.	EPI-SOP-RD-07-A-10-024
		Issue Date	2017.07.01
Raw Material Specification		Issue No	6
		Revision Date	2022.07.29
Product	Onion Powder		
Composition	suitable varieties of onion (<i>Allium cepa L</i>)		
Description	The dehydrated onion shall be prepared from clean sound bulbs of suitable varieties of onion (<i>Allium cepa L.</i>), after proper washing, peeling, trimming and slicing. The bulk of moisture from the slices is removed by dehydration under controlled conditions, in a manner, which would ensure the effective preservation of the colour, flavour, texture and food value of onions.		
Allergen	Non - Allergen		
CAS No	NA		
Pack Size	NA		
Packing condition	packed in alu foil bag		
Storage condition	Store in cool dry conditions at ambient temperature away from		
Physicochemical characteristics		Specification	UOM
Moisture, Max*	6.00		%
Smell	absence of rancid & free from strangers smell		
Taste	Characteristic, free from rancidity & strange flavours		
Foreign Material	Absent		
Colour	white		
SO2	30		ppm
Copper	10		ppm
Cadmium	0.01		ppm
Lead	0.5		ppm
Microbiological		Specification	UOM
Coliforms	500		cfu/g
E.coli	absent		
Salmonella	absent		
Yeast & mould	500		cfu/g
Other requirements	The product label should be at least with the Brand, MFD, Exp. and batch number details. Each delivery should be contained with COA.		
Certificates	COA		
Reference	Company Requirement		

Note- * marked parameters shall be checked for each consignment at the time of receiving.
